

HORUS GLOBAL

All your travel security needs

Horus Global is a comprehensive travel security service providing real-time alerts, advice and guidance for anyone working in, studying in, or visiting, unfamiliar places

Horus Global services have been specifically designed for students living abroad, employees in foreign postings, families or friends visiting unfamiliar countries – anywhere with difficult locations and safety and security concerns

Why Horus?

Horus Global is a partner of Horus Security, providing access to a wider range of services including screening, consultancy, and insight reports

Specific country reports and assessments

Horus Global offers detailed security assessments and 24-7 access to senior experts, on hand to provide personal advice and information for any situation, at any time, anywhere in the world

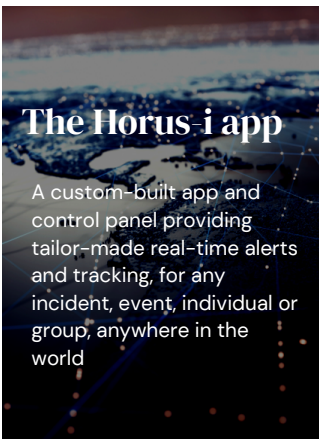

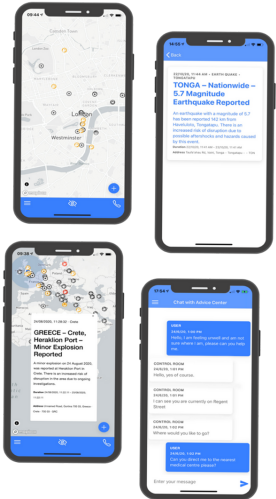

Customised and continually improved

All Horus services have been designed to provide peace of mind and convenience. They have been developed with clients and customers based on their direct needs and are continually being refined, based on ongoing feedback

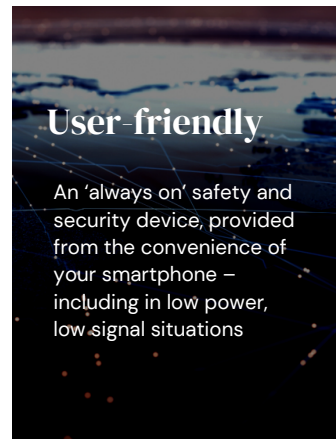

The very latest, up-to-date COVID news

The news and data available via the Horus-i app is comprehensive, the alerts and tracking system intuitive. The control panel provides a group overview and the app can be integrated with existing technology, and white-labelled if required

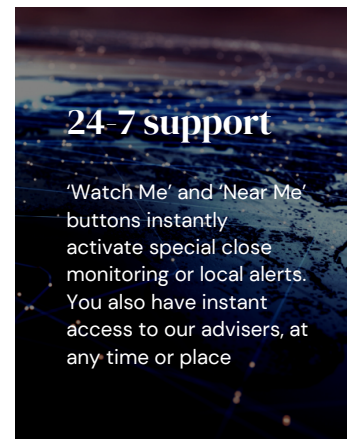

The Horus-i app

A custom-built app and control panel providing tailor-made real-time alerts and tracking, for any incident, event, individual or group, anywhere in the world

User-friendly

An 'always on' safety and security device, provided from the convenience of your smartphone – including in low power, low signal situations

24-7 support

'Watch Me' and 'Near Me' buttons instantly activate special close monitoring or local alerts. You also have instant access to our advisers, at any time or place
